

# DSC Workshop Series:

## Hands on Github

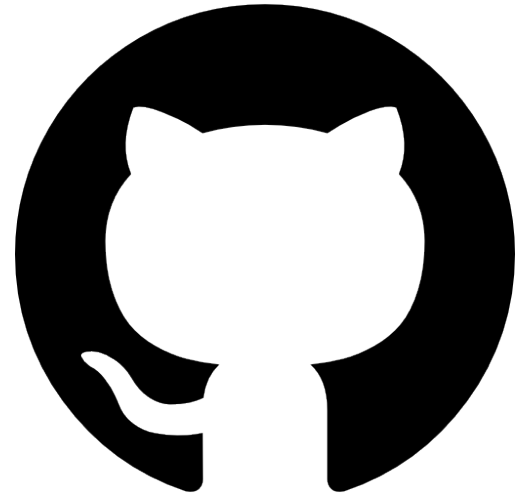

**git**

**vs**

# Git hub Account

Its as easy as opening a Facebook account .

- 1) Fork the Project
- 2) Clone or create repository
- 3) Write code , make contribution , improve documentation.
- 4) Add files for commit  
commit the changes
- 5) Push code to repository
- 6) Make a pull request

**GitHub work  
flow for  
Hacktoberfest**

**FORK  
CLONE  
MAKE CHANGES  
ADD  
COMMIT  
PUSH  
PULL REQUEST**
